

Dear Mr. Gabriel Awejori,

Congratulations! The 2023 Technical Program Committee has chosen your paper, "Subsurface geochemical rock-fluid interactions in Caney Shale, South-Central Oklahoma Oil Province (SCOOP)", to be presented at International Meeting for Applied Geoscience & Energy (IMAGE) in Houston, Texas. Each abstract was reviewed by multiple individuals with expertise in the appropriate area of geophysics/geology. The reviewers think your abstract represents a significant technical contribution that will interest many in the geoscience community. **Please accept or decline the invitation by Tuesday, 30 May.**

The Committee has arranged the presentations into sessions with a specific theme and focus. Your paper has been included in the following:

**Session Style:** Oral Presentation

**Session ID:** GHCEM 3

**Session Title:** Geochemistry of Unconventionals

**Presentation Date and Time:** August 31, 2023 from 4:25 PM to 4:50 PM

**Session Room:** 362B, in the George R. Brown Convention Center

*This includes questions/answers and transition to the next speaker.*

We **highly encourage** you to visit the [Speaker Kit](#) for detailed instructions, information regarding your presentation, and other important information for a successful presentation. We also encourage you to visit the [Expanded Abstract Kit](#) if you plan on submitting an expanded abstract, which is optional. The expanded abstract kit will provide helpful information on submitting, instructions for typing an expanded abstract, a sample, and a templet. The deadline to submit an expanded abstract is 27 July. This is a hard deadline, and we will not be offering any extensions. No exceptions. Please start preparing your expanded abstract now to meet this important deadline.

Authors will retain copyright of short abstracts. When you accept this invitation, you acknowledge that you allow SEG and AAPG full authority to reproduce and distribute the short abstract, warrant that the material you have submitted is your own, and that SEG and AAPG posting of the material does not infringe on rights of any other persons or organization.

The IMAGE Technical Program will be posted online at <https://www.imageevent.org> in August and we encourage you to review the other papers in your session.

Please note that per IMAGE policy, travel expenses and registration fees for attending the meeting are the Speaker's responsibility; however, once you have accepted our offer to present, you are obligated to show up at the assigned time to give your presentation. Authors who do not show up disrupt the flow of the session, do a disservice to other speakers and the audience, and complicate coordination with other technical sessions. IMAGE will continue to implement a No-Show Policy. This policy is described in the Speaker Notes on the Speaker Kit webpage. If you are unable to show up at your designated presentation time, please inform the IMAGE Education and Meeting Manager at [jcole@seg.org](mailto:jcole@seg.org) as soon as you are aware of the problem, and before 4 July 2023, in order to avoid being placed on the 2023 No-Show List. (After this deadline it is still possible to have a co-author as a replacement speaker.)

IMAGE 23 schedule is shifting - the dates are moving by one day: Opening Session and Icebreaker, Monday, 28 August; Technical Conference Sessions and Exhibition, Tuesday-Thursday 29-31 August; Postconvention Workshops, Friday 1 September.

IMAGE registration is anticipated to open by 22 May. IMAGE 23 would like to offer you a Technical Program speaker rate when you register. This code is valid for full conference registrations only. Please visit [www.imageevent.org](http://www.imageevent.org) after 22 May and follow the steps, but once you get to the contact screen you will enter SPK23IMG into the priority code field. The best practice is to type the code instead of cutting and pasting as this can sometimes create an error message. Please note that the registration rate will still appear at full value. When you get to Step 4, the payment screen priority code will adjust the registration fee to the appropriate value. Once your registration is complete, don't forget to book your hotel accommodation to secure the lowest price available. Additional details, policies and deadlines can be found at [www.imageevent.org](http://www.imageevent.org).

For those traveling to the United States from abroad, we strongly recommend starting your visa application process early, as it may take several weeks or months, depending on your country of origin. Your visa letter is available. It is located in the Messages dropdown menu at the top of the page in ScholarOne and can be viewed/printed by signing into your account. This personalized speaker invitation letter will help to support your visa application.

**Please do not forget to accept or decline the invitation by 11:59 PM on 30 May Central Time. By accepting, you are expected to present in person in Houston as this is a face-to-face only meeting. Failure to accept may result in removing you from the program, so it's important to respond by the deadline. (NOTE: The invitation will reopen after the initial deadline so the speaker can upload the expanded abstract and complete the necessary questions/information by 27 July.)**

Thank you for submitting your work for the Technical Program at IMAGE. Your inclusion will help make IMAGE Meeting a significant learning experience for everyone. Don't forget to pick up your Speaker ribbon in the Speaker Ready Room. You will need this letter to retrieve your ribbon.

Sincerely,

Aria Abubakar
